

How to be an Ohio Web Library Power User

- 1 The Ohio Web Library searches the Libraries Connect Ohio databases.
- 2 Ohio Web Library uses Z39.50 & results are vendor dependent.
- 3 Phrase searching isn't your best strategy. "Quotes" just won't work as well as simple, short searches. Keep them simple... one or two unique terms.
- 4 Novelist is not included in the Libraries Connect Ohio databases because it was purchased separately and isn't Z39.50 compliant.
- 5 Don't use the back button on your browser. Once Ohio Web Library is loaded on the browser that's it—the browser provides a platform for the search. If you need to "go back," then just do the search again. It's very fast.
- 6 Ohio Web Library includes a few databases not purchased by Libraries Connect Ohio, notably Wikipedia (remember people use it and it works) and OAlster, a union catalog of digital resources.

OHIO WEB LIBRARY

The Ohio Web Library is funded in part by an IMLS LSTA grant awarded by the State Library of Ohio.
